General Business:

From the September meeting minutes:

Roger Fuss raised his concern about the change in the club rules in relation to inactive club membership. It has always been accepted in the past that an inactive club member can reactivate full membership by paying the difference between full membership and inactive membership. Roger has indicated that he will investigate whether this regulation can be changed without an official notice period prior to voting.

Current Meeting:

John Mackay moved that the club's financial position should not be shown on the club's website. If a club member requires this information, then they should attend a meeting themselves or send a proxy to obtain this information.
